Universities

7

- ◆ **France's universities are publicly funded** and located in every region of the country.
- ◆ **The universities confer (i) national diplomas (*Licence, Master, Doctorate*) that have the same academic value** regardless of where they are awarded, and (ii) other diplomas that are specific to the university that confers them.
- ◆ Enrollment in the first year is open to all students holding a French *baccalauréat* or equivalent diploma signifying completion of secondary study.
- ◆ **University programs are available in all domains of teaching and research** (sciences, letters, languages, arts, humanities, health, athletics, and more).
- ◆ The universities enroll 219,939 international students (73.6% of all international students in France).

Doctoral training 1/2

◆ Key figures:

- ✓ 75,000 doctoral candidates
- ✓ 24,500 international candidates — 41% of all doctoral candidates in France!

◆ Candidates enroll in a “doctoral department”

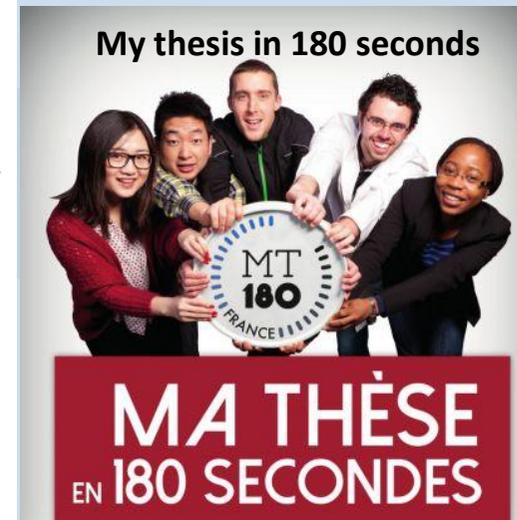

- ✓ Doctoral departments bring together research teams and host teams from one or more educational institutions around specific scientific themes.
- ✓ Doctoral departments organize and supervise doctoral training.
- ✓ Candidates apply directly to the department for admission.

◆ Doctoral training is supervised by one or two thesis advisers.

◆ The curriculum centers on research conducted in a laboratory or research center → Candidates do very little course work.

◆ **Candidates write and defense a thesis to earn the doctorate.** May be done in English, with a summary in French

◆ **Training** lasts 3 to 6 years (under exceptional circumstances) depending on the discipline.

Certification and accreditation

- ◆ The quality of higher education institutions and programs is indicated by a variety of mechanisms, some French, others international.
- ◆ Such mechanisms generally attest to an institution's compliance with applicable norms, standards, and regulations.
- ◆ All are delivered by organizations (public or private) that are independent of the institution or program being evaluated.
- ◆ Some common terms used to designate such mechanisms:
 - ✓ Accreditation (of institutions or programs)
 - ✓ *Agrément* (recognition)
 - ✓ Registration, e.g., in the French national registry of professional certifications (RNCP)
 - ✓ Certification, a broad term (in France, indicates government authorization of an institution to deliver a certain program, a process formerly known as *homologation*, and recognition of the professional level corresponding to a given diploma)
 - ✓ Label
 - ✓ Standard (as in international standards)
 - ✓ *Visa* (seal of approval)

Academic and professional recognition of degrees and diplomas

- ◆ **There is no officially recognized equivalence** between French and foreign academic credentials.
 - ✓ Requests for recognition of equivalence are made at the time of application for admission.
 - ✓ **Each institution is free to set the level of equivalence of credential presented by applicants.**
 - ✓ Bilateral agreements for mutual recognition of diplomas may facilitate equivalence requests.

- ◆ **The ENIC-NARIC network**
 - ✓ Information on degrees and diplomas from many countries and procedures for the recognition of academic equivalence (<http://www.enic-naric.net/>)

- ◆ Upon request, **France's ENIC-NARIC center** will issue a document recognizing a foreign credential.
 - ✓ **Certificate of comparability** / recognition of studies completed
 - ✓ An expert opinion, **help in interpreting the foreign credential**
 - ✓ Fee: €70 / case
